Our 104th Year

Best in the Long Run

We do our best to live up to that slogan. If we fail to meet your expectations please let us know.

Create a Riotous Rainbow of Spring Color with Bearded Irises

All you need is a sunny location (at least ½ day of sunshine) and well-drained soil. Irises don't like to sit with wet feet! Plan to space plants 12" to 18" apart.

You'll find several hundred varieties to choose from in this list. The small Miniature Dwarf Bearded are listed first, followed by groups that are increasingly taller in stature and later in bloom season.

We save the best for last – you'll find the very newest offerings from our Colorado hybridizers at the back of the booklet.

Shipping Times and Pick up Options

If you specify a particular ship date, we will endeavor to comply. Generally, orders received before July 1 are shipped in July and early August, orders received after July 1 are usually shipped in August. In order to insure that all orders are shipped to reach you at the proper planting time, we stop taking orders August 1st. However, if time and supply permit, we will accept a few orders after August 1st. Please call to check.

If you wish to pick up your order, there is no shipping charge, but you must pay the Boulder City tax of 8.16%. Orders may be picked up by prior arrangement on Thursday and Friday afternoons from noon to 6:00 or Saturday morning from 9:00 AM to noon in July and August.

If you live in the northern latitudes or at a high altitude, please order early so that we can ship your order in July. These short season climates need a head start.

For more information, please check our website,
www.longsgardens.com.

Guarantee

If there is any problem when you receive your shipment, please let us know right away. If any of the plants you purchase fail to grow for one full year we will replace them (although sometimes it will be necessary to substitute a different variety, but as close to the color as possible).

We do guarantee our iris to be true to name.

We do not guarantee the plants will flower the first spring after planting. Some plants will need an extra year to establish.

Dig it yourself!

During the bloom season in May and June, we do allow you to dig from specially designated fields. We will be open April 25th through June 10th, seven days a week. Hours are 9:00 AM to 5:00 PM.

If you are ready to plant this spring, you may dig Tall Bearded iris plants for \$6.93 (\$7.50 with tax). One field is labeled with names, the other is our “anonymous” field. You may also dig labeled Miniature, Standard, and Intermediate Bearded irises (bloom from 8” to 27” in height) for \$5.55 (\$6.00 with tax).

No need to bring any tools. We provide digging forks and bags.

Bloom season is the only time of year you may purchase “Cash & Carry”, otherwise plants are available only by prepaid orders.

Come Visit

We’d love to have you come enjoy the iris while they’re in bloom. We’ll be open through June 10th from 9:00 AM to 5:00 PM. We’d suggest you call first to check on the condition or the bloom. We also try to keep the website updated with the status of the bloom as well as the progress of the Broadway Reconstruction. Please check it often as well, www.longsgardens.com.

May through early June is the only time we maintain regular office hours. The rest of the year is by appointment only.

The wonderful April showers are really bringing on the May flowers – please come and enjoy them if you can!

Miniature Dwarf Bearded (MDB)

Diminutive Harbingers of Spring

At just 2”– 8” tall, these tiny treasures are the earliest of the bearded iris to bloom. In our fields they usually start blooming in late March or early April. Miniature dwarfs thrive in a climate with a definite cold season and are best enjoyed in a rock garden or elevated planting. You’ll want to make it easy to sniff their dainty blossoms – most are very fragrant!

EARLY START COLLECTION

A collection of 5 different Miniature Dwarfs

All labeled.

Just \$12.50

Bigger isn't always better. *The tall bearded iris are beautiful and showy, but don't limit your garden to just the "big guys". If you add some of the dwarfs and intermediates you can vary the height and extend the bloom season. Good things do come in small packages!*

Standard Dwarf Bearded (SDB)

Versatile & Vigorous

These gems of the Spring garden bloom later than Miniature Dwarf and earlier than Intermediate or Tall Bearded. They stand 8"-15" tall. SDBs will form clumps that provide you with wonderful mounds of color and nice cushions of spiky leaves.

Please see the next page for SHALE'S SHORTIES, a collection of Standard Dwarf Bearded irises.

SHALE'S SHORTIES

Shale, our reformed wild cat, continues her career as "time out" director and house monitor. She has consented to take time out from her leisure pursuits to select some of her favorite Standard Dwarf Bearded iris for you. Shale promises to give you a straight shooting, on target, value for your money.

SLATE'S SELECTS

The newest member of our feline family is Lisa Slate (she goes by Slate). She's a lovely grey kitty with big green eyes. She was rescued from Rifle, Colorado and is our main rodent deterrent for our office area. She proved herself the second day on the job. Her duties ease up a bit in the summer, so she has taken on the task of selecting a nice assortment of Intermediate iris for you.

Slate is bigger in stature than Shale, so she finds the Intermediate iris at 16"-28" tall more to her liking. Like Shale, she promises a rock solid deal.

Tall Bearded (TB)

Tried and True – Old and New

Most of the iris in our main listing are Tall Bearded, with stalks over 28” tall and as high as 40” (there are some Border Bearded (BB) that are 16”-28” tall). Their time of bloom ranges from mid-April in the southern states to late June in the far north and high elevations. Most varieties bloom once a year in the spring, although some will rebloom in the summer and fall in warm climates.

This collection makes a great gift. Since it is often a person's first exposure to modern bearded irises, we strive to provide a top-notch selection of varieties

We're pleased to present some fine new creations from Colorado hybridizers!

2009 INTRODUCTIONS

ARVADA MIST (Jerry Hall) TB 36" ML Gold hafts with red cedar veining make a striking contrast to pale yellow-gold standards that softly set atop pale orchid falls with gold beards. Tall, well branched stalks and a fast multiplier. This iris will fill in an empty spot quickly. Named for my home town in Colorado. Sultry Mood X Capricious.....\$40.00

BUTTERSCOTCH BLUSH (D. Miller) BB 26" EM A nice butterscotch iris with just a hint of "cheek" blush, the result of an off color joke. A good grower with nice branching and adequate buds. A thick, bushy golden butterscotch beard sets it off.....\$30.00

FROSTED JULEP (Magee) TB 36" L Laced icy white standards and falls with a taste o' mint. (Panamint/Mandolin/Strike Me Pink/Fair Luzon/Pink Sleigh) X (Sky Surf/Envious) EC 2004 & 2006.....\$40.00

HEATHER NOEL HALL (Jerry Hall) TB 32" ML Smoky lavender standards rise tall above the pale lavender falls, which show a smoky lavender blaze with a wide yellow edge adorned with yellow beards. This ruffled iris with a sweet fragrance was named for my daughter. Honky Tonk Blues X Mystic's Muse.....\$40.00

MULL IT OVER (D. Miller) TB 34" E This mulberry plicata has 7 large blossoms and good sequence of bloom. Mull has good vigor, nicely branched, and strong sturdy stalks that all add up to make a good garden plant.....\$40.00

ROCKY ROAD (D. Miller) TB 29" EM Who doesn't like a small bowl of Rocky Road ice cream? This one has all the same colors with rich cream, chocolate to nutty veining browns, and sprinkle in a little cinnamon for taste. Rocky produces multiple stalks so expect a lot of bloom and a long bloom season. A rather small flower, but it makes up for it with vigor and lots of bloom. 5-9 buds.....\$40.00

WIMBLEDON (Magee) TB 32" M Ruffled tennis dress white standards & falls with green grass reflections. Sib to Frosted Julep. EC 2008.....\$40.00
