Our 106th Year

Best in the Long Run

We do our best to live up to that slogan. If we fail to meet your expectations please let us know.

Create a Riotous Rainbow of Spring Color with Bearded Irises

All you need is a sunny location (at least ½ day of sunshine) and well-drained soil. Irises don't like to sit with wet feet! Plan to space plants 12" to 18" apart.

You'll find several hundred varieties to choose from in this list. The small Miniature Dwarf Bearded are listed first, followed by groups that are increasingly taller in stature and later in bloom season.

We saved the best for last – you'll find the very newest offerings from our Colorado hybridizers at the back of the booklet.

Shipping Times and Pick up Options

If you specify a particular ship date, we will endeavor to comply. Generally, orders received before July 1 are shipped in July and early August, orders received after July 1 are usually shipped in August. In order to insure that all orders are shipped to reach you at the proper planting time, we stop taking orders August 1st. However, if time and supply permit, we will accept a few orders after August 1st. Please call to check.

If you wish to pick up your order, there is no shipping charge, but you must pay the Boulder City tax of 8.31%. Orders may be picked up by prior arrangement on Thursday and Friday afternoons from noon to 6:00 or Saturday morning from 9:00 AM to noon in July and August.

If you live in the northern latitudes or at a high altitude, please order early so that we can ship your order in July. These short season climates need a head start.

For more information, please check our website,
www.longsgardens.com.

Guarantee

If there is any problem when you receive your shipment, please let us know right away. If any of the plants you purchase fail to grow for one full year we will replace them (although sometimes it will be necessary to substitute a different variety, but as close to the color as possible).

We do guarantee our iris to be true to name.

We do not guarantee the plants will flower the first spring after planting. Some plants will need an extra year to establish.

Dig it yourself!

During the bloom season in May and June, we do allow you to dig from specially designated fields. We will be open April 30th through June 12th, seven days a week. Hours are 9:00 AM to 5:00 PM.

If you are ready to plant this spring, you may dig Tall Bearded iris plants for \$7.85 (\$8.50 with tax). One field is labeled with names, the other is our “anonymous” field. You may also dig labeled Miniature, Standard, and Intermediate Bearded irises (bloom from 8” to 27” in height) for \$6.00 (\$6.50 with tax).

No need to bring any tools. We provide digging forks and bags.

Bloom season is the only time of year you may purchase “Cash & Carry”, otherwise plants are available only by prepaid orders.

Come Visit

We’d love to have you come enjoy the iris while they’re in bloom. We’ll be open through June 12th from 9:00 AM to 5:00 PM. We’d suggest you call first to check on the condition of the bloom. We also try to keep the website updated with the status of the bloom so please check it often, www.longsgardens.com.

May through early June is the only time we maintain regular office hours. The rest of the year is by appointment only.

The Broadway reconstruction is finished. Come and admire our newly rebuilt wall, drought tolerant street planting, sidewalk etchings, and historical information sign.

Miniature Dwarf Bearded (MDB)

Diminutive Harbingers of Spring

At just 2”– 8” tall, these tiny treasures are the earliest of the bearded iris to bloom. In our fields they usually start blooming in late March or early April. Miniature dwarfs thrive in a climate with a definite cold season and are best enjoyed in a rock garden or elevated planting. You’ll want to make it easy to sniff their dainty blossoms – most are very fragrant!

EARLY START COLLECTION

A collection of 5 different Miniature Dwarfs

All labeled.

Just \$12.50

Bigger isn't always better. *The tall bearded iris are beautiful and showy, but don't limit your garden to just the "big guys". If you add some of the dwarfs and intermediates you can vary the height and extend the bloom season. Good things do come in small packages!*

Standard Dwarf Bearded (SDB)

Versatile & Vigorous

These gems of the Spring garden bloom later than Miniature Dwarf and earlier than Intermediate or Tall Bearded. They stand 8"-15" tall. SDBs will form clumps that provide you with wonderful mounds of color and nice cushions of spiky leaves.

Please see the next page for TROUT'S TREASURES, a collection of Standard Dwarf Bearded irises.

TROUT'S TREASURES

Our newest cat, Trout, came to us from Uzbekistan. No, she didn't walk all the way, but came thanks to the Peace Corps and our neighbor. Trout, with her wide experience in the world, is content to stay put and help with selecting a wonderful collection of Standard Dwarf Bearded irises. She is short of stature and hardy, like these shorter beauties. She promises to give you a world class value for your money.

FOXES' FAVORITES

Our resident foxes have decided, after several years with us, that it is time for them to "paws" in their fanciful frolics and select a fun and floriferous collection of Intermediate Bearded irises. These mid size iris are just the right height to be enjoyed by frolicking foxes and flower fancying folk. The foxes have spent many hours in the fields and have a keen eye in choosing just the right irises for you.

Tall Bearded (TB)

Tried and True – Old and New

Most of the iris in our main listing are Tall Bearded, with stalks over 28” tall and as high as 40” (there are some Border Bearded (BB) that are 16”-28” tall). Their time of bloom ranges from mid-April in the southern states to late June in the far north and high elevations. Most varieties bloom once a year in the spring, although some will rebloom in the summer and fall in warm climates.

We're pleased to present some fine new creations from Colorado hybridizers!

2011 INTRODUCTIONS

LITTLE LIGHTHOUSE (D. MILLER 2011) SDB This little rosy red lighthouse sends a beacon of light across the spring garden. The standards are pinkish rose red as are the rims of the falls, but the falls are accented by a dark maroon red spot. But it's the yellow gold beard that provides the shining light that radiates and accents the flower. You won't need a flashlight to see it at night. Expect 2 to 3 buds. 99-11A (Cimarron Rose X Pinkie Paws) X Nut Ruffles.....\$15.00

POINTS WEST (MacKENDRICK 2011) TB 36" M Tall, well branched and lightly ruffled campanula violet on white plicata. Standards near solid violet; falls white, edged and striated violet. Bronze and violet beards end in horns and occasional flounces. A healthy, sturdy grower and reliable bloomer that makes a handsome garden clump. (Enchanted Mesa X Momentous Occasion).....\$40.00

ROSITA RUBY (J. HALL 2011) TB 30" M An eye-catching iris gem of claret wine color. The veining of gold on the hafts is accented by a yellow beard. Although only 30" tall, it is still a welcome addition to the garden of any iris lover.....\$40.00

ROYAL DISPOSITION (D. MILLER 2011) TB Ahhh! It's nice to see a knight with a Royal Disposition. The silvery light blue standards provide the armor, while the ruffled royal blue purple falls provide the bluster. The reddish orange beards provide that knight's royal attitude. 03-17A (Fancy Woman X (Liaison X Jesse's Song)) X Sharpshooter.....\$40.00

SUNSHINE DELIGHT (J. HALL 2011) TB 33" L This delightful yellow self has a soft white blaze. Good branching and growth habits. A very nice yellow iris to have. Like a breath of sunshine in the garden.....\$40.00

THISTLEDEW (J. HALL 2011) TB 38" ML Cream/white standards with tan/ecru falls, edged in gold, is a sibling of Ecru to You. A vigorous grower with good branching and high bud count. I named this iris for my father-in-law who often said, "This'll do".....\$40.00
